FOR the ready reference of teachers who wish to present an integrated program, the songs of THE MUSIC HOUR, five-book series, have been classified in this pamphlet according to the major topics generally found in the social program of the modern school. These classifications expand the topics and units listed in the Classified Indexes at the back of each pupil's book.

The teacher may also wish to place this pamphlet in the hands of boys and girls who are at work on various classroom projects in which they are including creative activities in music.

"The Music Hour in the Kindergarten and First Grade" (for the teacher), is organized throughout into units which include songs and instrumental music for various types of interests and activities. MUSICAL FORMS

NOTE: The development of a consciousness of musical structure is a fundamental principle in THE MUSIC HOUR series. The study of music form begins when the children first are led to recognize phrase repetitions and contrasts (see Elementary Teacher's Book, p. 8). The early processes are developed in subsequent grades as a basis for both music reading and music appreciation. Under music appreciation would also come the consideration of structural similarities in songs and instrumental compositions (see Chapter Eight, "The Study of Forms," Intermediate Teacher's Book, p. 23; Chapter Seven, "Design in Music," Teacher's Guide for the Fifth Book, p. 27).
